ABOUT THE COMPANY

DDPAVER, a brand of **D. D. ENTERPRISE**, carries forward a journey that began in **2009**, when Proprietor Mr. Tapan Dey started the company with a small manufacturing unit in Suripukur, Barasat, West Bengal.

Over the years, D. D. ENTERPRISE has grown through experience, dedication and a steadfast commitment to quality, and today operates a medium-scale paver block manufacturing facility in **Amdanga, along NH 12**, serving builders, contractors, developers, and project professionals across West Bengal.

**ZIG-ZAG PAVER
BLOCK MAKING
IN PROGRESS**

From a Small Beginning to a Stronger Tomorrow

2009

THE BEGINNING A SMALL START

Proprietor Mr. Tapan Dey began the journey with a small manufacturing unit in Suripukur, Barasat, West Bengal.

2009 - 2025

YEARS OF GROWTH BUILT ON TRUST

Through hard work, continuous improvement and unwavering focus on quality, the company grew steadily—earning the trust of 1000+ clients and completing countless projects across West Bengal.

2026

NEW CHAPTER THE NEXT LEAP

With modern infrastructure and upgraded technology, we now operate a medium-scale paver block manufacturing facility in Amdanga, along NH 12.

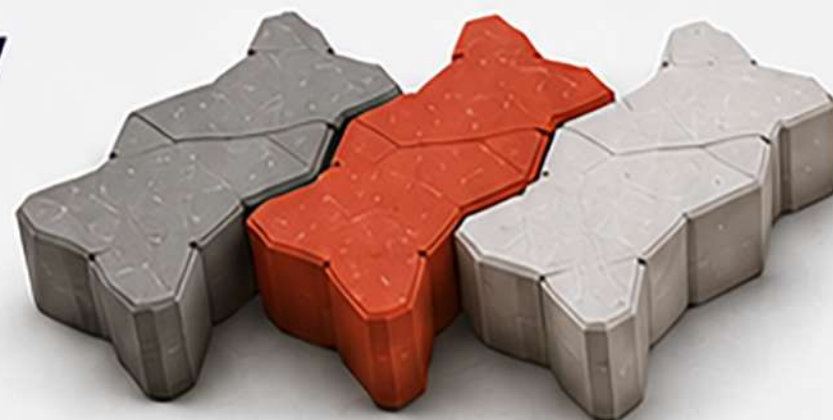

2026

DDPAVER BRAND LAUNCH

Introduced by his Son Sayan Dey, DDPAVER represents the next chapter of our family business—combining heritage, experience and a modern vision for the future.

Today, we manufacture and deliver **M30 to M40 grade** concrete paver blocks, engineered for strength, durability, dimensional consistency, and long-term performance.

As the brand continues to grow, DDPAVER remains focused on delivering reliable precast concrete solutions and building lasting relationships with its customers.

OUR PHILOSOPHY IS SIMPLE:
**EARN TRUST THROUGH QUALITY, DELIVER WITH CONSISTENCY,
AND NEVER COMPROMISE ON THE STANDARDS THAT DEFINE DDPAVER.**

QUALITY ASSURED

Premium raw materials and strict quality control for superior products.

BUILT FOR STRENGTH

M30 to M40 grade concrete for maximum strength and durability.

CONSISTENT PERFORMANCE

Dimensional accuracy, perfect finish and long-lasting performance.

TRUSTED PARTNER

Serving builders, contractors and developers with reliability.

CUSTOMER FOCUSED

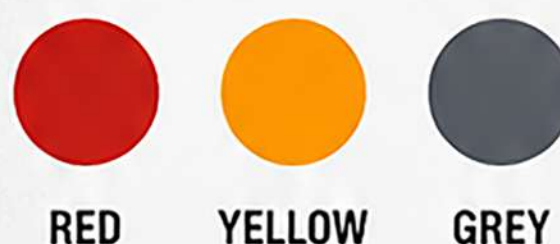

We value relationships and grow with our customers.

ZIG-ZAG PAVER BLOCK

Zig-Zag Paver Blocks are designed with an interlocking shape that provides excellent load distribution, durability and aesthetic appeal. Suitable for residential, commercial, industrial, landscaping, pathways, parking areas and driveways.

COSMOS PAVER BLOCK

The Cosmos interlocking paver block offers a distinctive circular pattern that enhances any outdoor surface. Versatile and designed for aesthetic and functional integration within lawns, private courtyards, public parks, and pedestrian walkways. The pattern allows excellent drainage and remains slip-resistant. Color-fast pigments ensure the finish retains its appearance over years of outdoor exposure.

CHOOSE THE RIGHT PAVER

CUSTOMER DECISION GUIDE

The right paver block with the right thickness ensures strength, safety, aesthetics and long-term value. This guide helps you select the ideal paver for your specific application and load requirement.

APPLICATION-WISE PAVER SELECTION GUIDE

APPLICATION	RECOMMENDED PRODUCT	THICKNESS	SUITABLE FOR	LOAD CAPACITY GUIDE
Garden & Landscaping	Cosmos / Damru	40 mm	Decorative spaces, gardens, patios	Pedestrian, Cycle Bike (occasional)
Footpaths & Walkways	Zig-Zag / Brick	40-60 mm	Footpaths, walkways, parks, school areas	Pedestrian, Cycle Bike (occasional)
Residential Driveway	Zig-Zag / Brick	60 mm	Home driveways, private access roads	Lower Motor Vehicles Upto 30 Ton Load
Residential Parking	Max / Zig-Zag	60 mm	Car parking, garages, apartment parking	Lower Motor Vehicles Upto 30 Ton Load
Commercial Parking	Zig-Zag	60-80 mm	Shopping malls, office parking, public parking	Lower to Medium Heavy Vehicles Upto 30-60 Ton Load
Heavy Traffic Area	Zig-Zag	80 mm	Roads, industrial yards, loading/unloading areas	Heavy Duty Vehicles, Roadworks, Factory Upto 60 Ton Load
Decorative Areas	Cosmos / Max	40-60 mm	Plazas, resorts, landscape features, entrances	Pedestrian to Lower Vehicles Upto 30 Ton Load
Outdoor Flooring	Chequered Tile	30 mm	Terraces, balconies, sit-outs, pool decks	Pedestrian Use Only

WHY CHOOSE DDPAVER PAVER BLOCKS?

HIGH STRENGTH & DURABILITY
Engineered for long life and heavy loads.

INTERLOCKING DESIGN
Better load distribution and stability.

LOW MAINTENANCE
Easy to clean, replace and maintain.

AESTHETIC APPEAL
Wide range of shapes, colors & patterns.

ECO FRIENDLY
Permeable, allows water recharge & reduces runoff.

COST EFFECTIVE
Long life with low maintenance cost.

THICKNESS & LOAD CAPACITY GUIDE

40 MM – FOR PEDESTRIAN & LIGHT USE

- ✓ Ideal for areas with light traffic.
- ✓ Best for pedestrian walking, cycling & light two-wheelers.
- ✓ Occasional bike movement is acceptable.

TYPICAL LOAD CAPACITY
UP TO 10 TON

60 MM – FOR LOWER MOTOR VEHICLES

- ✓ Designed for driveways, car parking and areas with movement of cars, vans & light commercial vehicles (LMVs).
- ✓ Can take load up to 30 Ton.

TYPICAL LOAD CAPACITY
UP TO 30 TON

80 MM – FOR HEAVY DUTY & INDUSTRIAL USE

- ✓ Built for heavy traffic, trucks, buses, industrial yards, roadworks and factory premises.
- ✓ Can take load up to 60 Ton.

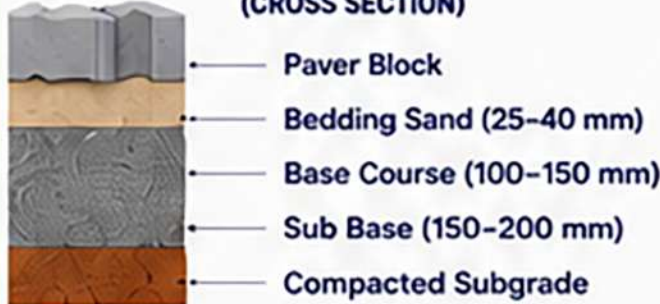

TYPICAL LOAD CAPACITY
UP TO 60 TON

DID YOU KNOW?

- ✓ Thicker pavers = Higher load bearing capacity.
- ✓ Proper base preparation is as important as paver thickness.
- ✓ Interlocking pavers are 2-3 times stronger than conventional flooring.
- ✓ Paver blocks are easy to replace if damaged and reusable.
- ✓ They help in rainwater percolation and reduce urban flooding.

TYPICAL PAVER INSTALLATION (CROSS SECTION)

NOTE: Load capacity may vary depending on sub-base quality, installation method and usage conditions.

ALWAYS ensure proper base preparation and installation for maximum performance and lifespan.

KEY FACTORS TO CONSIDER

LOAD REQUIREMENT
Match thickness with expected load.

SUB-BASE QUALITY
A strong base ensures long-term performance.

USAGE FREQUENCY
Higher traffic needs thicker pavers.

CLIMATE & DRAINAGE
Permeable pavers help in water management.

AESTHETICS
Choose colors and patterns that enhance your space.

BUDGET
Right choice saves long-term maintenance cost.

BENEFITS OF CHOOSING THE RIGHT PAVER & THICKNESS

- ✓ Prevents cracking and breakage
- ✓ Ensures safety and smooth surface
- ✓ Longer life and better performance
- ✓ Cost savings on maintenance and repairs
- ✓ Enhances appearance and property value
- ✓ Environment friendly and sustainable solution

PRO TIP

When in doubt, choose the higher thickness for future load increase and longer durability.

INVEST ONCE, BENEFIT FOR YEARS!

CARE & MAINTENANCE TIPS – EASY STEPS FOR LONG LASTING PERFORMANCE

REGULAR SWEEPING
Keeps the surface clean and free from dust and dirt.

WASH WITH WATER
Use water to remove dirt, stains and spills.

RE-SAND THE JOINTS
Periodically add sand to the joints for better interlock and stability.

REMOVE STAINS
Clean oil or chemical stains immediately with proper cleaner.

AVOID HARSH CHEMICALS
Do not use strong acids or chemicals that may damage the surface.

REPLACE DAMAGED PAVERS
Replace damaged pavers easily without disturbing the entire area.
